28.3 The employee must not use, divulge, or communicate to any person any information apart from that relevant to normal business with clients or to persons who have proper authority, relating to the Employer's business, or that of its principals, without the Employer's prior approval.

28.4 The employee must keep confidential, after termination of employment, all Employer's business arrangements, tariffs or pricing information, customer and supplier names, private matters, and other confidential information in regard to the business of the Employer, its employees and its principals and not disclose any such information to anyone.

28.5 The employee must leave with the Employer all books, records, notes, papers, correspondence, and other documents concerning and containing reference to the business of the company, and/or its principals on their termination of employment.

28.6 The employee must not copy any material described in clause 28.3 above for personal use or by any unauthorised person.

28.7 The employee must recognise their obligations of confidentiality for information and records relating to individual patients.

28.8 These provisions do not inhibit the employee's right to be represented either industrially or professionally. Only confidential information relevant to that particular issue being dealt with will be disclosed.

28.9 Subject to clause 28.8 if the Employee becomes aware that an incident occurring in the clinics has generated interest from the media the Employee will not have any discussions with the media.

28.10 Subject to the limitations placed on the Employee in the clauses above, the Employee reserves the right to enter into public debate and dialogue over matters relevant to their professional expertise and experience. Where such debate could be in conflict with the clauses above the Employee will discuss the matter first with the Employer.

- 28.11** This clause will apply during the term of this Agreement and will continue, on expiry of the Agreement, to apply thereafter.

29 OTHER EMPLOYMENT

- 29.1** The Employee may undertake other employment with other employers provided that the employment is in their own time and the total hours worked does not affect the required standards of safety and care at the Employer's clinics.
- 29.2** Where the Employee wishes to undertake any other employment, the Employee must first notify the Employer.

30 TERMINATION OF EMPLOYMENT

30.1 Notice periods

- 30.1.1 The period of notice of termination for 'Registered Nurses' under this Agreement will be four (4) weeks; provided that the notice period will remain at two weeks for all Employees employed prior to 22 April 2002 by Westcare White Cross Limited, Baycare Community Health Limited, Southern Cross Limited, and Dr Ponsonby Limited, with the exception of 'Charge Nurses', whose notice period in all cases will be six (6) weeks.
- 30.1.2 'Registered Nurses' who retain the two-week notice period under this clause are encouraged, nevertheless, to give four (4) weeks' notice wherever possible. Where employment is terminated without having given the requisite notice period, then the party terminating the employment will pay or forfeit the appropriate notice period in salary.
- 30.1.3 Nothing in this clause will prevent the summary dismissal of an Employee for serious misconduct.
- 30.1.4 The notice period required to be given shall be exclusive of any period of annual holidays able to be taken under this agreement except when annual leave was applied for more than 4 weeks in advance of the notice period commencing. Any leave that is approved four (4) weeks prior to the start date of the notice period will not be declined or withdrawn.
- 30.2** The Employer may direct that the Employee ceases to work before the completion of the notice period, but payment for the full notice period will nevertheless be made to the Employee.
- 30.3** In the event of any serious misconduct, or any serious breach, serious non-observance or serious non-performance of any of the terms and conditions of this Agreement, the Employer retains the right to dismiss the Employee.
- 30.4** Upon termination of employment the Employer will provide on request a signed certificate setting out the nature and period of the nurse's engagement.
- 30.5** Where an Employee is absent from work for a continued period exceeding 3 days without the consent of the Employer or without notification to the Employer, she or he will be deemed to have terminated his or her employment without notice, unless a reason satisfactory to the Employer is given.

- 30.6** Upon termination of the Employee's employment:
- 30.6.1 The Employee must immediately return all property of the Employer to the Employer.
 - 30.6.2 If the Employee fails to return all such property to the Employer, the Employer may delay payment of the final pay until such property is returned.

31 EMPLOYEE RELATIONS

- 31.1** The parties to this Agreement recognise the mutual benefit of positive employee relations. In its relationship with those affected by this Agreement the Employee's organisation will have regard to the special nature of the medical profession.
- 31.2** With the consent of the Employer, which will not be unreasonably withheld, an authorised officer of the NZNO may interview or have a meeting with nurses at their place of employment.
- 31.3** The Employer will supply an updated schedule of current Employees to the NZNO from time to time, upon request.

32 REDUNDANCY

- 32.1** The Employer and NZNO recognise that loss of employment is a serious matter for those involved.
- 32.2** In the event that the Employer intends to declare any Employee redundant, the Employer will discuss that intention with the Employee and NZNO before giving notice of termination of employment.
- 32.3** The Employer will provide the Employee and NZNO with one month's notice of any impending redundancy and every endeavour will be made to enable mutually agreed redeployment to a substantially similar role in nature and remuneration. In the case of full redundancy, the Employee will not be required to work out the period of paid notice.
- 32.4** A role substantially similar in nature and remuneration will constitute one that:
- 32.4.1 has comparable duties and responsibilities; and
 - 32.4.2 has terms and conditions the same or substantially similar; or
 - 32.4.3 In a capacity that the employee is prepared to accept.
 - 32.4.4 If the employee is offered a redeployment of a substantially similar role, no redundancy compensation will be payable.
- 32.5** If the Employee works out their period of notice they will be given such reasonable time off without loss of pay as may be necessary to enable her/him to seek alternative employment and to undergo counselling.
- 32.6** The Employee made redundant will be provided with a certificate of service stating that employment was terminated as a result of redundancy.
- 32.7** The Employer will supply suitable redundancy counselling services for any Employee requiring such services.
- 32.8** The Employee made redundant will be entitled to receive compensation

payment calculated to the length of service based on the following scale:

- 32.8.1 For the first year of service or part thereof, five weeks pay based on the Employee's average weekly earnings for the 12 months immediately prior to the date of dismissal; and
- 32.8.2 For each subsequent year of service or part thereof, two weeks' pay based on the Employee's average weekly earnings for the 12 months immediately prior to the date of dismissal.

32.9 No redundancy payment will be payable in the event that the Employee's employment is terminated solely as a consequence of the whole or any part of the Employer's business being reorganised into a single employing company, sold, transferred, merged or allied with that of another business and the new employer offers the Employee employment in the same or a similar capacity, on terms and conditions no less favourable. In such circumstances the Employee's service will be treated as being continuous.

32.10 Partial redundancy will apply in a situation where a Full-Time or Part-Time Employee accepts redeployment to a position with reduced hours.

32.11 Partial redundancy will be calculated on the basis of applying the redundancy pay formula described in clauses 32.8.1 and 32.8.2 of this agreement to the total number of lost ordinary hours per week at a rate that ensures the employees average weekly earnings are maintained for the duration of the payout. This total will be paid as an allowance over the number of weeks of entitlement to a maximum of 30 weeks. Should the Employee's permanent hours increase over this period, the allowance will be reduced or removed accordingly. This redundancy payment will not be negatively impacted by additional casual shifts.

32.12 Should an employee resign from White Cross, or the payment stretch beyond 30 weeks then the remaining balance will be paid in a lump sum.

33 EMPLOYMENT PROTECTION PROVISIONS

33.5.1 The Employer will advise the Employee of what entitlements are available under the employment agreement with the employer

- 40.1.1 Consultation between the Employer, its Employees and the union is essential on substantive matters of mutual concern and interest. Effective communication between the parties will allow for:
- i) Improved decision making
 - ii) Greater cooperation between Employer and Employees; and
 - iii) A more harmonious, effective, efficient, safe and productive workplace.

The Employer recognises the role of the Employee's staff delegate and the NZNO in assisting in the positive management of change.

- 40.1.2 Prior to the commencement of any likely significant change to staffing, structure or work practices, the Employer will identify and give reasonable notice to Employees who may be affected and to the NZNO to allow them to participate in the consultative process so as to allow substantive input.

- 40.2.1 Consultation involves the statement of a proposal not yet finally decided upon, listening to what other have to say, considering their responses and then deciding what will be done. Consultation clearly requires more than prior notification.
- 40.2.2 The requirement for consultation should not be treated perfunctorily or as a mere formality. The person(s) to be consulted must be given sufficient opportunity to express their view or to point to difficulties or problems.
- 40.2.3 If changes are proposed and such changes need to be

preceded by consultation, the changes must not be made until after the necessary consultation has taken place. Both parties should keep open minds during consultation and be ready to change. Sufficiently precise information must be given to enable the person(s) being consulted to state a view, together with a reasonable opportunity to do so – either orally or in writing.

- 40.2.4 Consultation requires neither agreement nor consensus, but the parties accept that consensus is a desirable outcome.
- 40.2.5 The consultation process will give employees affected, or likely to be affected, by any significant change to staffing, structures, or work practice, and the NZNO organiser/delegate, the opportunity to put forward their views on any proposals or options developed for change prior to any final decision being made.
- 40.2.6 The process will generally include, but not necessarily be confined to the following:
- Management will meet with Employees likely to be affected and the NZNO organiser/delegate to outline the probability of change, looking at the current situation and the future, given the factors that could give rise for the change.
 - Management will develop a plan or proposal with options that include possible implications in relation to staffing changes.
 - The plan or proposal will be circulated to Employees likely to be affected and the NZNO organiser/delegate, with a request for submissions within a reasonable and specified timeframe. Alternative proposals or options should demonstrate that the objectives could be met. Management will meet with Employees and the NZNO organiser/delegate for clarification of issues arising from the plan or proposal.
 - Once submissions have been considered, management will make the final decision, and work with the NZNO organiser/delegate to finalise the implementation plan.
 - It is agreed that consideration will be given and maintained in the Employer's basic rights and obligations to operate the business in an efficient, businesslike, safe and professional manner.

each occasion), to work at other White Cross clinics. Where an employee is requested to work more than two days on each occasion at other White Cross clinics or at other Tamaki Health clinics (not White Cross), it shall be by mutual agreement.

- 42.2 The terms and conditions will be per the Employee's relevant agreement with a redeployment minimum of three hours at their normal rate which shall include any additional travel time over and above the employee's normal travel time. If the travel time exceeds normal shift finishing time, the employee has the option to depart the other clinic in order to return to the base clinic at the rostered finishing time.
- 42.3 Where an employee is working at another site, additional mileage for the use of personal vehicles will be paid in accordance with this Agreement or the employee will be reimbursed for reasonable travel costs.
- 42.4 Where an employee chooses not to work at another site in accordance with this clause, the employee may take paid annual leave or will be on unpaid leave.
- 42.5 The employer may institute a closedown period at a clinic or clinics in accordance with the Holidays Act 2003. The employer may offer such clinic employees the option to work at an alternative clinic instead of requiring the employee to take annual leave in accordance with the Holidays Act 2003.
- 42.6 The scope of practice and guidelines will be defined by the Chief Nursing Officer to help ensure good fit of the Employee's experience and training with the work to be done.

SCHEDULE THREE: Guiding Principles of the Professional Development and Recognition Programme

The Professional Development and Recognition Programme (PDRP) is a process to validate, recognise and reward levels of nursing skill and competence.

- All staff will receive the opportunity for support, education and training to meet the criteria for advancement through the levels.
- The criteria will be applied consistently across the Group.
- The criteria will be achievable, while remaining a challenge to staff.
- The process will be simple, objective and transparent.
- The professional development structure requires commitment to education and development of expertise through opportunities for continuing education. Both the Employer and the Employees have a responsibility to facilitate education.
- Progression through the levels will be based solely on achievement of specified and agreed criteria. Budget considerations will not affect progression.
- Performance management will be integral to the mechanism of this structure, including an annual performance review and coaching.

White Cross professional development and recognition programme (PDRP)

The White Cross PDRP is a programme that is approved and audited by Nursing Council of New Zealand (NCNZ) which complies with legislated requirements and NCNZ policies, guidelines and codes of practice.

Nurses assessed by the programme meet the Council's continuing competence requirements.

The PDRP is managed to ensure it meets all requirements as outlined in the White Cross PDRP resource document and White Cross Healthcare Nurses Collective Agreement.

The White Cross PRDP assessment process shall maintain consistency with other national programmes by regular liaison with the regional and national groups of PDRP Co-ordinators.

The competencies are written and reviewed in consultation with

nurses in practice and with reference to the Council's competencies.

Information/education about the programme and assessment processes is made available to all nurses.

The PDRP is reviewed and documentation updated, ensuring this occurs every three years as a minimum requirement, or as required by NZNC audits

The PDRP process ensures assessor selection fulfils criteria needed for assessment of WX portfolio submissions. Nurse assessors are sufficiently qualified in assessment and are able to provide constructive individual feedback on practice evidence. This assessment process is moderated (both internally and externally)

The education programme has a structure and competencies that promote and support ongoing professional development to continue learning and maintain competence and meet the continuing competence requirements. The education programme will facilitate progression to the next level of practice.

Education and support are provided by the programme nurse coordinator and assessors.

Education programme.

Formal education programmes are available for Registered Nurses which are relevant to clinical practice and in line with regulatory authority requirements.

Nurses have opportunities for ongoing professional development activities that are evidence based, that encourage and support nurses to develop their practice and include participating in planned education, such as nurse-led teaching sessions.

All clinical modules are planned and resourced and run at designated times to meet the needs of WX nurses.

Nurses new to White Cross are assigned to an appropriately trained nurse preceptor and are supported in a safe environment; receive clinical/professional supervision, to complete orientation and other learning modules.

Each graduate Registered Nurse will be supported by White Cross to engage in a formal first year of practice programme that ensures development of competence

Appropriate resources are available to support the education programme and PDRP including access to relevant and current learning resources (eg: journals/e-learning, information, and tools / workbooks.
